SUMMARY

BCA student and aspiring Full-Stack Web Developer with expertise in React and a strong foundation in frontend development. Currently learning backend technologies like Node.js and Express.js to build dynamic and scalable web applications. Passionate about creating seamless user experiences and efficient solutions, eager to apply technical skills to innovative projects in a professional setting.

SKILLS

Frontend Web Developement: HTML, CSS, JavaScript, React.js, Tailwind CSS
Backend Web Developement: Node.js, Express.js, MongoDB
Tools: VS Code, Git, GitHub, Postman, npm, Chrome DevTools
Soft Skills: Communication, Teamwork, Adaptability

PERSONAL EXPERIENCE

Web Developer (Academic Projects)

- Developed dynamic web applications using React, Node.js, and API integrations. Implemented features like real-time search, sorting, and filtering to enhance user experience.
- Built scalable and responsive websites using modern web technologies.

PROJECTS

My Portfolio
- My portfolio website highlights my journey as a web developer, showcasing my skills, projects, and experience. Built with React and Tailwind CSS, it offers live project demos and a downloadable resume in a clean, responsive design.
- Url: https://debjit-web.vercel.app/

SaveTheShow
- A web application using React and API integrations to manage and track movies. Features include real-time search, detailed movie information, user ratings, and local storage for watched movies, with sorting and filtering capabilities.
- Url: https://debjitadhikari.github.io/SaveTheShow/

PizzaDash
- A web application using React to order and customize pizzas. Features include a dynamic cart system, custom Tailwind CSS styling, and real-time updates for orders. It supports item removal, order management, and integrates responsive design for a seamless user experience.
- Url: https://pizza-dash.vercel.app/

Additional projects are available on my GitHub profile: https://github.com/DebjitAdhikari
